

## Course description

# Bilingual Thirteen

### Approach to Bilingualism

Our Bilingual Section welcomes students from a wide range of backgrounds who speak English as a first language. We aim to:

- provide opportunities to practise and build on learners' oral English
- develop and extend their literacy (reading and writing)
- provide a window into the English-speaking world through literature and culture

To learn more about our approach to bilingualism, you can read our blog article on the subject [here](#).

### Approach to Learning

At the British Council, we offer high-quality, effective English teaching to help learners build confidence, become better communicators and prepare for their future in a positive, safe and inclusive learning environment.

Our teachers are experts in supporting bilingual learners of all ages in their natural use of English. Collaborative activities like debates, projects and role plays are at the heart of our classes and we draw upon a range of published resources, authentic materials and works of literature to ensure that learners are challenged, engaged and inspired.

Our bilingual courses are designed to reflect the objectives set out in the British National Curriculum. They also focus on the British Council core skills, which we believe are the keys to a successful future: digital literacy, communication and collaboration, creativity and imagination, personal development, citizenship, and critical thinking.

Students are grouped by ability level to help them get the most out of their classes.

### Approach to Assessment

Assessment is continuous so there are no exams. Instead, students collect samples of their best work together in a portfolio. This helps their teacher to keep track of students' progress and helps students to reflect upon their own learning. We communicate with parents in our Spring report and during our parent meetings in December.

## Books

Please make sure you have all the books on the reading list [here](#) before classes begin.

Over the summer, we suggest learners do as much reading as possible. Some suggestions for age-appropriate books can be found [here](#).

## Learning Objectives

Our teachers are experts who tailor their teaching to the specific needs of their students. In general, by the end of Bilingual 13, students will have worked towards the following objectives.
